MEDICINAL.

"I am well now and enjoying better health than ever before in my whole life."

That is the statement of a woman who had never been well until she was made well by the use of Dr. Pierce's Favorite Prescription. There are a great many other women in like case. They have always been sufferers from disease. They have never known the joy of perfect

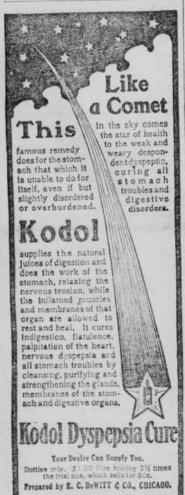

health.

For all such women Dr. Pierce's Favorite Prescription holds out the prospect of perfect and permanent health, by the cure of the womanly diseases which weaken women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well. and sick women well.

### TIMELY TOPICS.

To the Editor of the Alexandria Gazette: One reason that our fathers had the courage to wrestle for independence against the powerful British empire, was that they had in the Indian wars discovered their own superiority to the English as fighting men. When the (intette was young its readers were anxiously scanning its pages to learn if Russia would hire soldiery to England, with which to conquer the Americans. Catherine the Great too well deserves her title. She was great of soul and Russia furnished no hirelings for the ignoble pur-pose. Rothschild, the ancestor of the present bankers, used the bond of blood to get soldiers from Hesse and Hanover for the English king, and by the speculations he made with the Duke of Hesse's part of the blood-money received for the butchery of our ancestors, laid the foundation of the present great fortune of the house. This is prima facie evidence that it was he who made the proposition to Catherine and that the fire of hatred against Russia that his money is paying to blow up in the United States today dates from at least that far back. Ro hschild's plan is al-ways to get the different branches of the white race to butcher each other and at the same time go in debt to him and his

In June, 1856, Rothschild caused to be published in Blackwood's Magazine a plan for an alliance with the United States for the purpose of keeping Russia out of North China. As long as the democratic party was in service this was impossible. When with foreign mercenaries the northern States had almost heavy the republican destroyed the southern, the republican party began to meet the advances of England for the purposes of a coalition, contrary to the advice of Washington's Farewell Address. It began by the treaty between John Sherman and Rothschild for the overthrow of constitutional coinage, the purpose of which was to cut off the relief that our own mines had brought us, forced the extension of our bonded debt so much of which Roths-child and associates held and the handling of which operations vastly unriched Sherman's pet bank and made him a millionaire. During the entire life of the so-called republican, now thoroughly tory and royalist, party, the English and our home cabinet have tampered with the officers of our navy, preaching "English alliance" to them and hatred especially of Russia and Germany. The tory city of Boston invites an

English artillery company to come here so the Boston tories can slobber over the Boston tories can slobber over them and Roosevelt disgraced Washington with them, and Japan, stupid and unduly puffed up, has been made a tool of just as we are. If Joseph Chamtool of just as we are. If Joseph Chamtool of just as we are. If Joseph Chamtool of Just as we are our Secretary of State the berlain were our Secretary of State the office could not be run more in the intermonth the world is informed from that source that the government of the United States is greatly displeased at Russia's berlain's Stomach and Liver Tablets. est of England then it is. Thus our Secretary of State and President are putting hundreds of mil-lions into the pockets of Rothschild and associates by the prostitution of their of-

fice. They are doing this for their health—the Secretary's health is well known to be bad. The fact that he is building a million dollar flat at the same time he is enriching his friends in Europe is an unrelated incident. Some wicked people say he is getting "some

of the drippin's."

One of the hardest parts of the task is to get the white Americans to sympa-thize with the yellow Japanese against the white Russian. "Blood is thicker than water." The white people of the Pacific coast who know the colored Japanese and heartily hate them, would as soon sympathize with the colored Afri-can against the white Southerners. Some of the papers that are doing Rothschild's will in the democratic party on the fi-nancial issue are now undertaking the ame thing in the international issue. They are publishing the falsehood that the white Americans sympathize with the colored Japanese sgainst the white Slavs. The Russians are the original parent stock of the white race and all the other white nations are branches. The Mongolids, to which the Japanese belong, differ from the white race fundamentally, especially in their treatment of women. The Americans and Russians lead the world in tender and respectful treatment of women. The Japanese lather formally and legally binds out his daughter as a public woman, just as among us an apprentice is bound out. Some of the northern people from ignor-ance and some from hatred of the southerners, made believe that all the negro needed to make him our equal was edu-cation and a vote. Both have made him worse. The ethnic stock that once falls behind in the race never catches up. The Japanese are galvanized savages. Morally they are far below our Indians

Here is an issue on which democracy Onlo and of Canadians in Bryan was beaten in his first race. To-day the question is not what shall be the financial system of our country, but. Is this our country or do we belong to
